PARENT ALLOWANCE FOR STUDENT TRANSPORTATION

Parent allowance will be paid if the regular bus does not pass by the house and **ONLY** if it is more beneficial to pay the allowance than to extend the bus run beyond a point that would exceed reasonable time limits for all passengers. Exceptions will be made in the case of mentally or physically handicapped children whereby special considerations for financial assistance will apply. The school board reserves the right to make special case-by-case exceptions that need not conform to the specifics of the payment policy as listed below.

Mileage will be based on two return trips per day.

Rate is \$0.15 per kilometre for the first child and \$0.05 per kilometre for each additional child. Reimbursement maximum of four children per family. Minimum rate is \$10.00 per day.

Special circumstances for transportation of physically handicapped children may be considered at an additional rate of \$10.00 per day.

Transportation routes that require a special vehicle (4 X 4) will be considered at an additional rate of \$0.05 per kilometre.

Payment shall only be made on days when children are actually transported. Schools shall provide the Transport and Payroll departments with attendance records for the purposes of payment.
