NATURE OF THE WORK

The position of social worker encompasses, in particular, responsibility for carrying out prevention, promotion and screening activities, evaluating the social functioning of students and groups of students experiencing or likely to experience emotional, social, school or family problems as well as determining and implementing a social intervention plan in order to support and restore social functioning, foster the student's optimal development in interaction with his or her environment and help him or her pursue his or her educational path.

CHARACTERISTIC FUNCTIONS

The social worker contributes to the screening and identification of students experiencing social, family, personal or school problems, using an approach focussing on prevention and intervention; he or she evaluates the students' social functioning, including students suffering from a mental or neuropsychological disorder attested to by a diagnosis or an evaluation conducted by qualified personnel by means of a study and compilation of the information contained in the student's record, direct observations, interviews, consultations and questionnaires in order to determine the student's overall functioning and social needs. He or she implements, as part of an individualized education plan, a social intervention plan to meet the student's needs.

For further details on the characteristic functions please see the Classification Plan at the following address:
